# DEALERS PROTEST KENYON BILL

**Kingston Retail Grocers and Butchers Association to Back Up Big Packers in Fight to Avoid Government Control—Mr. Griffith's Address.**

A special meeting of the Retail Grocers and Butchers Association, held Wednesday evening at the Chamber of Commerce headquarters, Broadway and East O'Reilly street, was largely attended, nearly fifty members being present. A. D. Rose, the Franklin street grocer and marketman, presiding, Clifford Bennett being the secretary. Mr. Rose stated that the meeting had been called to listen to an address, by H. M. Griffith, of New York, and introduced the speaker.

Mr. Griffith, whose subject was "The Trend of the Times," spoke largely against government ownership and dwelt particularly on the so-called Kenyon bill now before the U. S. senate. He said he desired to register a protest against the most vicious legislation ever put across by the federal government at Washington, D. C., being the Kendrick-Kenyon bill which he characterized as un-American. He said it was the first step towards licensing all business. He explained the seven different clauses of the bill and quoted comments by the press and leading men of the country on the drastic effect the bill would have if it became a law and the packing houses go under government ownership. He called attention to what had happened since the railroads and express companies had been in government control and of the deficits resulting. The giving of autocratic power into the hands of the secretary of agriculture to regulate packing houses, would take away the management of them, great or small, one of the most efficient industries of the world.

Mr. Griffith said the bill is sailing under false pretenses, being a stab at the foundation of this country. It was the first step in the time of peace to turn this country into Socialism and government ownership. The latter would break every man's pocketbook. The speaker said he was opposed to taking down the American flag and replacing it with the red flag of ruin. "The bill ... the free right of appeal to the courts, which is inherent in every American citizen. If this bill, which thus practically provides for government operation of the business of packing house, stock yards, dealers in dairy products and poultry, as described in the bill, becomes a law, it is a step toward government ownership and government operation of every basic industry in the United States, committing us to paternalism and Socialism, from which there may be no turning back."

F. A. Benson, of New York, district superintendent for Armour & Co., was the next speaker and said he was opposed to the bill and wanted everybody to know it. His company had been fifty years in business and its aim had always been to give everyone the best of service. He thought that if control of packing houses was accomplished the control of the retail stores by licensing them would be the next step. He appealed to the grocers and butchers to help get the bill killed from a common sense view point.

Charles Andres, local manager for Morris & Co., also spoke and registered a protest against the Kenyon bill. He said he had been with Morris & Co. for 27 years and they had always insisted that the interest of the public be looked after first and carefully. The employes were not only paid good wages but given bonuses.

While it had nothing to do with the special meeting, Jacob Goediel, a retail butcher on Broadway, entered a protest against the wholesalers selling meats and supplies at retail to families, lunch wagons, etc. He was told by David Forst, of the Armour plant, and by Mr. Andres, of the Morris & Co., plant, that it was against the rules to sell at retail, and that it was not done.

Before the close of the meeting a resolution was adopted that Secretary Bennett, of the association, send a telegram to the chairman of the senate agricultural committee at Washington, D. C., that the Kingston Retail Grocers' and Butchers' Association object to the passage of the Kenyon bill.

### POUGHKEEPSIE MAY SELL

**Federal Beef and Vegetables if Council Accepts Offer.**

No definite decision has been reached on the offer of the government to sell to Poughkeepsie a carload of canned meats which were purchased for the army. The government offers the meats at 6 per cent less than what the army paid for the goods. The matter will be taken up by the aldermen at the next session. The government is also going to place vegetables on the market.

### Borah Unalterably Opposed.

By Telegraph to The Freeman.

Washington, July 17.—Opposition in the senate to the Shantung settlement will continue despite any declaration Japan might make that she is prepared to relinquish full territory rights within Kiao-Chau or any other part of the Chinese provinces, Senator Borah, Republican, of Idaho, an uncompromising leaguer of nations opponent, stated today.

# DRY ENFORCEMENT BILL IN SENATE

**Tied Up With Peace Treaty and Final Action Long Way Off—Seek Way to Reach Hoarded Wet Goods.**

By Telegraph to The Freeman.

Washington, July 17.—The senate prohibition enforcement bill will be reported to the full judiciary committee, probably on Monday, Senator Sterling of South Dakota, chairman of the sub-committee drafting the measure, stated today.

"I believe the bill will go through the senate easily and with no opposition," Senator Sterling said. He admitted he was not hopeful, however, for final action until after the peace treaty has been disposed of.

The senate sub-committee today was giving particular attention to the clauses in the bill which make it permissible for liquors to be kept in private dwellings for private use. Members of the committee hoped to reach some plan which would strike at the man who has stored away large quantities of liquor for his own use, maintaining that this is an invasion of the spirit of the law and is unfair to those who were not able to lay in a supply of wet stock.

Senator Walsh of Montana strongly favors a provision in the bill which would make these stores taxable and would require the owners to report the amount of liquor which they have. Senator Sterling has indicated that in his opinion it would be a difficult problem to deal with private liquor hoards and believes that the most effectual way will be to allow the supplies to be maintained, so long as they do not come in to violation with the law.

Appeals of the Anti-Saloon League for more facilities for securing search warrants was not expected to meet with favorable results from the senate committee. Senator Sterling and Senator Walsh reiterated today that they believe that the proceedings for securing search warrants which are now in force are adequate. The Anti-Saloon League's request that the punishment for securing search warrants for "malicious and unprovable" causes be lessened as it has not met with favor by members of the committee.

### AMERICAN MONEY

By Telegraph to The Freeman.

Berlin, July 16, via London, July 17.—A report was current in financial circles today that American financiers propose the reconstruction of Hamburg-American and Lloyd steamship lines and that the vessels will again fly the German flag when again put into commission. The idea is receiving favor among the stockholders.

The government has the intention of reimbursing ship owners for their losses during the war. Negotiations are now proceeding in Berlin. The ship owners are demanding from four to six times the pre-war value of their vessels.

The United States Grain Corporation has notified its zone agents throughout the country that there will be no advancing premium over the guaranteed price of wheat imposed by Julius Barnes, United States wheat director, before August 15th, since the movement from the farms does not warrant the increase and the grain corporation has been able to make only small purchases. About that date the wheat director will make another review of the situation and make an announcement concerning the placing of a premium.

# CHARMING FETE AT GLEN BURNIE

**Opera Singer, Interpretive Dancers and Skilled 'Cellist With Picturesque Lawn Setting Made Temple Emanuel Affair a Huge Success.**

Glen Burnie Farm, the picturesque estate of Aaron and Ralph Cohen on Hurley avenue, was the scene last evening of a most charming lawn fete, given for the benefit of Temple Emanuel, by the ladies of the temple. Glen Burnie Farm, with its picturesque pool, overhung by a rustic summer house, its running brook crossed by rustic bridges, and with its many stately and beautiful elm, willow and maple trees, offered the setting for the evening's program that was indeed lovely. The lawn in front of the house formed the open air auditorium and large American flags, Japanese lanterns and electric lights added to the natural beauties of the place.

A large audience was assembled early in the evening, the many autos meeting the guests at the corner of Washington avenue and North Front street, while others arrived in their own motor cars.

Joseph Block acted as master of ceremonies, announcing the various numbers on the program, the first of which was an aria from Cavaleria Rusticanna, sung by Mme. Errerra, a noted operatic singer, who possessed a powerful yet sweet voice of wide range, and much musical temperament, singing with marked dramatic effect. She so delighted her audience that an encore was demanded and graciously given. Mme. Errerra was ably accompanied at the piano by Mrs. Herman Marblestone.

Then little Rosalind Canfield danced gracefully onto the open greensward, and gave the beautiful interpretative dance, "The Song of the Robin," in fascinating manner, while a nearby Vesper Sparrow sang his hearty approval of the graceful and charming little girl whom he could look down upon from his leafy gallery.

Next followed a gay duet dance, "Jean and Jeanette," given with all sorts of quaint coquetry and beauty of motion, by Miss Katharine Kearney as "Jean" and Miss Helen McNelis as "Jeanette," both in fancy French costumes.

When Jacob Mollott, with Harry Maisenhelder as accompanist, stepped forward to play the next number, both men were given an ovation, showing how glad their many friends were to welcome them back, safe and sound to their home town, and their places in its musical circles. Out of the stress of war Mr. Mollott has gained a something which, added to his skill as a musician, held his audience breathless while he played the beautiful "Berceuse" by Godard in a manner that charmed the very birds. A song sparrow, hearing the beautiful tones, flew closer and closer to the musician, singing his applause as though his little throat would burst, then suddenly he became silent as though realizing that a greater musician than himself held the field of action. Kingston music lovers may well be thankful that Mr. Mollot has been returned to his home town with added musicianship and an exceptionally beautiful 'cello bought for him by one of the officers at Coblenz, Germany, while Mr. Mollot was with the Army of Occupation. In response to the prolonged applause Mr. Mollott played a lovely "Melody" by Massenet.

As the glory of the sunset sky, perhaps the most beautiful after the day's storm, deepened, Miss Katharine Kearney danced the "Valse Brilliant" with a grace and abandon that was exceptionally beautiful. The young people who danced were well accompanied by Miss Helen Westbrook.

The program as announced closed with another operatic number, sung by Mme. Errerra, an aria from "Tosca," which called forth such added applause as to bring back the madame, who sang the "Serenata," made famous by Caruso.

Then, by special request, Master Joseph Block, held the close admiring and thoughtful attention of the entire audience as he recited Lincoln's incomparable Gettysburg address in a truly inspiring manner.

Following this delightful program, delicious ice cream and home made cake were served.

During the evening, those interested were privileged to inspect the room in the Glen Burnie farmhouse where the Messrs. Cohen have their really wonderful collection of historic antiques and souvenirs, from a real native Indian outfit to munitions of war, helmets, etc., which saw service in the great world war. The collection is indeed a rare one including a great many and varied curios of value.

Altogether the lawn fete at Glen Burnie Farm was a huge success.

### WHEAT CONTRACTS.

**Grain Corporation Regulations On Proposed Trade Contracts.**

The United States Grain Corporation on Wednesday sent the following bulletin to its zone agents respecting delay in execution of contracts which the grain corporation is undertaking with all trades dealing in wheat and wheat flour.

"Proposed trade contracts will not be accepted by the United States Grain Corporation after July 31st except in special cases on recommendation of zone vice-presidents and upon approval by central office.

"License regulations governing dealers not under contract control, later to be promulgated, will probably include a rule which will require restitution to the producer in the event of purchases being made on an unfair buying margin. Decisions under this rule, it is likely, will be retroactive. Under the trade contracts proposed, the restitution rule is not retroactive, but protection is secured the producer by the contract agreement to follow the grain corporation decision at once on complaint of the producer at the time wheat is offered for sale."

# PREPAREDNESS THE ALTERNATIVE

**China's Peace Delegate Says She Must Put House In Order To Prevent Future Injustice Like Shantung Settlement.**

By Telegraph to The Freeman.

New York, July 17.—"The only thing for China to do now is to put her house in order so that she can better defend herself in future dealings with international events. Maybe then we will get justice."

Dr. Chao-Chu-Wu, member of the Chinese delegation to the Versailles peace conference made this comment today on the Shantung settlement.

Dr. Wu, who with his party is making a leisurely return to China from France, has been spending several days in this city. Tomorrow he goes to Washington where he expects to remain a month.

"China had hope for justice and equity at the Paris conference, and she does not think that she received it there," continued Dr. Wu. "Consider the situation a moment. Shantung is a large district, containing 36,000 square miles and a population of 38,000,000 people. That is pretty near the population of France. One would think that in the disposition of a huge tract of territory like this, the people themselves might have been allowed the right of self determination.

"China does not think it justice that property taken away from her by the German mailed fist should be given to some one else. China was one of the allies; she stood always ready and willing to do her full share of the winning of the war; and she naturally thought that she would be regarded as an ally when it came to the final settlement. Surely we deserved as fair treatment as the others. Look how they disposed of Alsace-Lorraine; look how they gave back Poland's dismembered parts, how Czecho-Slovakia and Jugo Slavia were considerately treated. Even the Danish Islands are to determine whether they want to go back to the control of Denmark, although Denmark had no part in the war. The powers controlling the peace conference certainly should have given Shantung back to us. We had certainly expected it.

"Why was it done? Who knows? I will not attempt to give Japan's reasons for insisting on this sort of settlement. I only know that she did so insist and that she has demonstrated that she is a very speedy and quiet worker.

"We registered our protest but that did not seem to effect much good. About the only thing to do is to go home and to put our house in order so that we will be ready for whatever comes to pass in the future.

# PREVENT CIGAR WORKERS STRIKE

**Central Trades And Labor Council Repudiates Two Agitators Who Are Also Warned By Police—Many Such Said To Be Here—Y. M. C. A. Imposed Upon—Martin Makes Attitude Known.**

An effort to "pull" a strike in the cigar factories in this city was apparently nipped in the bud Wednesday when William B. Martin, president of the Central Trades and Labor Council informed two agitators that the local council would in no way cooperate with them in causing unrest and industrial disturbances in this city. All arrangements, it is understood, had been made to call a meeting of the cigar workers, create unrest, place agitators in the factories and at a given time call a strike. After the strike had been called it was planned to then organize the workers. An agitation in Kingston among cigar workers is being conducted in order to make a strike that is now taking place in New York successful.

### Had Army Service Papers.

In investigating the presence of the two agitators working among cigar factory employes today it was learned that the city is literally infested with labor agitators. There are all kinds in town, it was said. Some are working the shirt factories, others the garment shops, etc. As near as could be learned today the two men working the cigar factories dropped into town Tuesday. One who gave his name as Harry Rosen carried papers showing he had seen service in the Canadian army. The other claimed to be a former American doughboy. Rosen is tall, weighs about 150 pounds and wore a felt hat. His partner was short, wore dark tortoise shell glasses, a light suit and a straw hat.

Tuesday afternoon Morris Schlessinger, manager of the American Cigar Company's factory, complained to police headquarters that the two men were stopping his employes and asked that they be taken into custody. An officer was sent to the factory and asked Rosen to accompany him to police headquarters to make an explanation. Inasmuch as he was not creating a disturbance he was not placed under arrest.

### Told Police of N. Y. Strike.

At police headquarters Rosen informed Chief J. Allan Wood that he had been sent out from New York city to organize the cigar workers in this city. He showed a letter to the chief to this effect. He explained that there was a strike among the cigar workers in New York and that Kingston cigars were being shipped into the metropolis. Therefore the effort to organize Kingston in order to force the New York manufacturers to meet their demands. He also showed Chief Wood his discharge from the Canadian army and a picture of himself in uniform. Chief Wood made it plain to Rosen that he or his co-worker must not create any disorder or violate the law or they would immediately be placed under arrest. He was cautioned about stopping men or women on the street and congregating in general. The chief stated that the men had hired Measter's Hall for Tuesday night, but that the meeting had been called off.

Wednesday noon the American cigar factory was again picketed by the agitators and policemen were sent to see that the agitators stayed within the law. No complaint was received from the Van Slyke & Horton or the Fitzpatrick factories. The two men were not about the factories this noon.

### Given Lodging at Y. M. C. A.

This morning it was learned that the two men had "bummed" a night's lodging at Y. M. C. A. Tuesday night. Showing their discharge papers to William Campbell, in charge at night, and claiming to be "broke," they asked for a night's lodging. This they were given being informed that they must get up at 8 o'clock. At that time on Wednesday they were awakened by Harry Elmendorf. The tall one, Rosen, asked to use the telephone and called the Western Union asking if there was a money order there for him. When he concluded his telephone conversation he said that he would be taken of, and showed Mr. Elmendorf a telegram, covering the heading and signature, leaving the bare message, "We will take care of you at once." Both said they were going to look for work. They then left the "Y" and have not been seen since.

### Martin Speaks for Local Union.

William B. Martin, president of the Central Trade and Labor Council of Kingston, seen by a Freeman reporter this morning, made it very clear that the organization of which he is the head, has had nothing to do with bringing or inviting to Kingston the so-called "organizers" who are now here.

"The Central Trade and Labor Council," said Mr. Martin, "is willing to listen to any group of employes in any trade or line of work who themselves want to organize. And there is a regularly appointed and recognized organizer in this city, Patrick McDermott, who is authorized to cooperate with such groups. We do not want to attempt to organize people who themselves do not take the initiative and we will not do it. Neither will we be a party to the work of those who come to Kingston and seek to stir up employes of any factory or plant and induce them to go on strike.

"When people, men or women, are employed in a factory or industry and they find conditions or wages not

The work of the Girl Scouts is described as follows in the report of Mrs Low

### Girl Scout Work Is National.

"The scope of Girl Scout work is national troops are organized in every state except Utah, and they are active in the territory of Hawaii Girl Scout troops are affiliated with the work of schools, churches settlement houses, civic councils, community, welfare organizations, women's clubs, etc., but the Girl Scouts' organization are nonsectarian and nonpolitical. A girl may belong to other organizations at the same time.

"The average home is evolved by the parents for their own comfort and convenience The schoolroom atmosphere and environment are created by the personality of the teacher The adolescent girl longs for a place of her very own, where she can be herself, and where she can do the things she wants to do The Girl Scout troop fulfills this need because it is the girl's own creation founded and managed by her in co-operation with comrades of her own age"

### Unendurable Surgical Thirst.

Thirst following abdominal operations is often of so intense a character that the memory of it lingers in the patient's mind for many years. Every hospital has records of patients who have surreptitiously consumed the contents of a hot water bottle in an effort to quench the unendurable thirst from which they were suffering.

# TUBERCULOSIS COMMITTEE MET

### Annual Reports of Officers Show Need for Enlarged Hospital—Balance on Hand of $2,330.91—Officers and Committees Named.

The annual meeting of the Ulster county committee on the prevention of tuberculosis, which was held at the office of the president, Judge Joseph M. Fowler, last evening, was one of particular interest in its bearing upon the tuberculosis fight in our county. In addition to the annual reports the changing from the dispensary to the clinic manner of carrying on the campaign against the white plague was discussed and adopted.

The president, Judge Fowler, presided.

After reading the minutes of the last annual meeting, the secretary, Dr. Mary Gage-Day, read her report for the year just past, which was as follows:

**Annual Report of Secretary.**

Mr. President and members of the Ulster County Committee on Prevention of Tuberculosis:

There was but one meeting of the executive council last year, that was held September 8th. At this meeting the secretary was elected and appointed a member of the dispensary committee.

Dr. Gates was appointed chairman of the seal sale, which it was expected would be held as usual. The influenza epidemic came upon the county very soon and the members of this committee worked actively with the other forces of the city to meet the serious community problem of taking care of so many sick people. After the subsidence of the influenza all over the country it was decided by the National Red Cross and the National Tuberculosis Association, that the seal sale might interfere with the great drive of the Red Cross for members. It was decided by the two national organizations that the Red Cross should conduct its drive for members And in place of the seal sale the Red Cross should turn over to the National Tuberculosis Association as much money as was realized from the seal sale the previous year. This was done and this committee has received three fourths the amount of money realized the last year's seal sale The balance will be paid around August 1. The money is paid by the state organization to the local committee on the requisition and budget plan and most exact distribution account required of every cent received. The money is not received unless it is spent in local tuberculosis work.

As the dispensary did not seem very successful, the committee on the advice of the State Charities' Aid Association, secured a nurse especially qualified to develop that part of the work Miss Lydia Gapp began work the last of February, she conducting the city work and Miss Brown working in the county. In April arrangements were made for an intensive tuberculosis survey of the city and county. Dr. Laidlaw, sanitary supervisor of this district, was in charge of the work. He requested the assistance of both of our nurses to work with those furnished by the state. Miss Kuhlman, state supervising tuberculosis nurse, was here and made all the plans for the nurse work for this survey. Both of our nurses assisted in this survey.

Dr Laidlaw, from the nurses' records, reports the following results of the survey: Twelve clinics were held in the following places: Two each in Saugerties and Kingston, one in the following: Pine Hill, Rosendale, Stone Ridge, Woodstock, New Paltz, Highland, Ellenville and Wallkill. Total number of persons examined, 485; 112 positive, 71 being new cases, 91 suspects and 282 negative. As these examinations were all made by non-resident experts in diagnosing tuberculosis. They represent the real condition. These in addition to our previously known cases makes the total number known in the county as follows: In city 68, at camp 17, in the county 147, military rejects, list of State Charities' Aid, 45, making a total of 277 positive cases of tuberculosis and 91 suspects. These figures represent our real tuberculosis problem more accurately than any previous estimates have done That it is a serious problem we all recognize and it is hoped that the opinions expressed tonight will help to make the solution clearer.

Respectfully submitted,
MARY GAGE DAY.
Secretary.

The report was accepted as read.

Dr. O'Meara, chairman of the dispensary, class and visiting nurse committee, next reported as follows:

Dispensary Committee:
Mary O'Meara, M. D., Ch.
Aden C. Gates, M. D.
Mary Gage-Day, M. D.

Ladies and Gentlemen:

The dispensary license was dated June 5, 1918. It was located originally on Broadway on the first floor, but was moved later to the up stairs rooms at 574 Broadway, where it is located at the present time. The value of the equipment was placed in the report to the state board of charities as $150. The following is a report by months of the patients:

| | Patients. |
|---|---|
| July, 1918 | 5 |
| August | 7 |
| September | 5 |
| October | .. |
| November | 1 |
| December | 7 |
| Jan., 1919 | 19 |
| February | 34 |
| March | 30 |
| April | 22 |
| May | 8 |
| Total | 138 |

At the clinic held in May by the expert for the survey, 64 people presented themselves for examination. At the one held July 11, 119 attended. So it would appear that clinics were more successful in reaching the people than a dispensary.

MARK O'MEARA,
Chairman Dispensary Committee.

**Treasurer's Report.**

A summary of the report of the treasurer, C Hume, shows:

| | |
|---|---|
| Receipts (including $2,330 cash on hand Nov. 17, 1917) | $6 856 45 |
| Disbursements | 4,496 54 |
| Balance on hand | $2,239 91 |

These two reports were received and accepted, and Sam Bernstein and David Burgevin were appointed an auditing committee to audit the treasurer's report.

Dr A. C. Gates, chairman of the hospital committee, reported a waiting list at the hospital most of the time. It had been found necessary to add a night nurse to the list of attendants at the hospital. At present an excellent and competent janitor is looking after the hospital Dr Gates drew particular attention to the fact that at present there is a notable lack of tuberculosis hospital beds, and many non-resident patients had had to be refused admittance on account of this lack. The equipment at the cottages is not adequate nor desirable for certain classes of cases and yet with the shortage of hospital beds it had been necessary at times to use the cottages even though not as satisfactory as they should be. The need for an enlarged hospital was obvious to all who were acquainted with the present demands made upon the present institution, especially following the clinics which have been held in the county.

Dr. O'Meara then brought up the matter of the desirability of continuing the dispensary on Broadway, or of changing from the dispensary to the clinics form of meeting the needs of the tuberculosis patients in the community After a careful discussion of the subject viewing it from every angle, and comparing the results with those of the recent clinics, it was voted to continue, for the present, the services of Miss Gapp, with those of Miss Browne (the former as city tuberculosis nurse, the latter as county tuberculosis nurse) at the same salary and to develop the plan of holding frequent clinics in the city and county, with an expert in tuberculosis from out of town, in charge This will mean a discontinuance of the dispensary for the present, the clinics to take the place of the same, and an office for the use of the two tuberculosis visiting nurses will be secured, and the public notified of the address of the same as soon as secured.

Officers for the ensuing year were then elected as follows:—President, Judge Joseph M. Fowler; vice presidents, The Very Rev. Dean Hickey, Sam Bernstein, Mrs. C. N. Reed, the Rev. J. J. Briody the Rev. Charles G. Ellis; secretary, Mary Gage-Day, M. D.; treasurer, Cornelius Hume. The president then appointed the following chairmen of standing committees:—On legislation and municipal regulations, Philip Elting; on publicity, Sidney D. M. Hudson; on hospital and camp, Aden C. Gates, M. D.; on dispensary, class and visiting nurse, Mark O'Meara, M. D.

The matter was then brought up of ways and means of securing other members of the Tuberculosis Committee in city and county, who would take an active interest in and work for the promotion of tuberculosis prevention and cure work in our community, and it was finally decided that each present member try to bring to the next meeting which will doubtless be held in August, five new members, and the secretary was instructed to write a letter asking for the interest and support of the various county centers, to each of the chairmen of Red Cross Branches and Auxiliaries in the county. The meeting then adjourned.

"The Better 'Ole" shows the men in the trenches in their lighter moments when they laughed and kidded and loved. It will be presented at Keeney's both Friday and Saturday.

The Ladies' Aid Society of the Reformed Church, are making extensive preparations for the clam bake to be held on the church grounds August 15th.

The C. E. Society expect to give the play, "The Farmerette," at Hurley on Tuesday evening, August 5th.

Mrs. Asa Dudley is spending a few days in this village.

### Magnolia Grandiflora.

Our common magnolia was well named, for it has the grandest flower of 35 species found in various parts of the world. One other large evergreen species, also native to this country, is M. glauca. About two or three dwarf evergreen species are known, the other 30 are deciduous and generally flower before the leaves appear. Magnolia macrophylla, as implied by its specific name, has the largest leaves of the group. These sometimes grow a foot wide and two feet long. It grows wild from Kentucky to Florida and west to Arkansas and Louisiana. The flowers are not showy or of nice color. The more common species grow best where water is found a few feet below the surface.—Los Angeles Times.

### Story of the Mirror.

From the twelfth to the fifteenth century small mirrors, carried in the pocket or attached to the girdle, were regarded as indispensable adjuncts to ladies' toilets. The pocket mirror was a circular plaque of polished metal fixed in a shallow box and covered with a lid.

## BOLSHEVIST HORRORS.

Those sensation-seeking faddists of American cities now known as "parlor Bolshevists" take it upon themselves to plead for a just trial of "the great governmental experiment in Russia," declare it to be inconceivable that men of Lenine's and Trotzky's high character could be guilty of countenancing the cruelty and bloodshed reported, and even go so far as to assert that the Soviet government at Moscow is the world's "most benign and civilizing influence." They are glib without knowledge and ready even in the presence of the most damning evidence, yet they are likely to find it hard to explain away the testimony of United States Consul John A. Embry, an American business official who had no axe to grind and no reason to become a partisan. Mr. Embry was stationed at Omsk, where he had abundant opportunity to learn at first hand of Bolshevist rule and terrorism in the territories of western Siberia and eastern Russia after their recapture by the Kolchak forces.

He now tells and gives proof of many horrors, murder, rapine, arson and wanton cruelty. For example, when, in November, 1918, Ufa passed into the hands of Lenine and Trotsky the town was looted and the Bolshevik leader put in charge was given power to put to death without trial any man, woman or child suspected of being opposed to Bolshevism. Immediately there were wholesale arrests of the former officials. "The judges, the aldermen, the councilmen and other leading citizens—that is, those who had not been able to escape—and all of those who were known to be against Bolshevism or were suspected of being against it were taken into the public square and executed. In every instance the condemned were denied any trial." Even the high school boys were lined up and questioned, those who escaped with their lives being set to work at menial tasks, while the larger boys "against whom there was a suspicion that they might be anti-Bolshevist, and therefore soon eligible for service under Admiral Kolchak, were taken out and shot to death."

The same policy was pursued in a number of other towns named by Consul Embry, who also cites many individual cases of the execution of men, women and girl suspects, the murders in some cases taking the form of drowning and sometimes being preceded by cruel lashings. At Ufa the melting snows of the following spring revealed the remains of scores of women and young girls whom the Bolsevists had driven into the woods and murdered. Consul Embry's story of terror, bestiality and tragedy in its darkest forms is relieved only by his expressions of faith in the patriotic motives of the forces of Admiral Kolchak and in their power ultimately to compass the complete overthrow of the bloody and despotic rule of the Bolsheviki.

Sergeant York attributes the winning of the war to Providence and the success of his own marvelous exploit to prayer.

Rome has once more been saved by the cackling of geese, the Reds about to blow up the city being foolish enough to boast prematurely and out loud where loyal soldiers overheard them.

Though a year is rarely long enough for a multitude of busy people, it has remained for fifty citizens of Minneapolis—possibly landlords—to demand a year of 13 months.

Americans who liked the modesty and manliness of the victor of the Marne when he came among us two years ago will be pleased to know that he triumphantly survived the recent effort in Paris to set "Papa Joffre" aside.

New York state has 1,500 probationers on the rolls, thus having more convicted offenders at large than are actually in the jails. While this may be economical, it may also in part account for the crime wave that keeps the New York police so busy.

The Elks boast of a roster of 64,-280 members in the military service and a roll of 1,037 killed in action.

An equally good American record was made by this organization at its recent national convention in Atlantic City, where in addition to patriotic resolutions the members were urged by their newly elected head to waste no time on fine-spun distinctions between anarchists and Bolshevists and do their utmost to rid their several communities of every variety of "Reds," paying "particular attention to parlor Bolsheviki."

## Good pals and good clothes

OFF into the country with your dog; tramping boots, a cap and your oldest clothes; that's the appropriate costume, and your old clothes don't prevent you from looking well dressed either. There are some clothes that look right no matter how long you wear them.

*That's the kind we have for you, made by Hart Schaffner & Marx*

There's no question of their wearing out. You can wear them for best; second best; when you're ready to use them for hiking they're still good.

It's all in the way they are tailored; the careful designing and finishing; the strong all-wool fabrics that are used. They are stylish when you buy them and for a long time afterwards. Besides that, we guarantee you satisfaction. Money back if you are not satisfied.

*Dixie Weave for coolness*

Make your plans for a cool summer. No matter how warm the weather gets, you can be certain of keeping cool—a Hart Schaffner & Marx Dixie Weave is the answer: all-wool, stylish, light weight.

*Suits for stout men*

There's one thing we are certain of: no matter what your figure, tall, short, stout or medium, we have the clothes to fit you. A big variety of styles, too. Satisfaction guaranteed.

## BAD JACK KNIFE CUT.

### Adelbert Miller Severed Artery and Lost Much Blood

Adelbert Miller, proprietor of the Ulster Storage Battery Company, at 552 Broadway, is suffering with a bad cut in the leg, received on Wednesday while at work in the shop. As it was near closing time, Miller was working fast in order to complete his work before going home. He was busy cleaning a storage battery terminal with a jack-knife, when it slipped plunging into the muscular part of his leg, just below the hip. The wound was a very deep one and severed a large artery.

His wife who was with him at the time wrapped her white skirt around the wound thinking that it might stop the flow of blood. However, this did not help very much, and soon became saturated with the blood.

No doctor could be found, so the injured man was rushed to the Benedictine Sanitarium in an automobile. Here his wound was dressed by Dr Eastman who happened to be there at the time.

Aside from being very weak from the loss of blood Mr Miller is resting as comfortably as could be expected after the loss of so much blood.

Mr. Miller's mother and brother, Earl, came up from Poughkeepsie, on the first train this morning. His brother who has worked in a similar plant in Poughkeepsie, will have charge of the business while Mr Miller is convalescing.

## PERSHING'S PRAISE

### For American Legion Weekly, Soon on Sale Here.

Soon after the charter is given to Kingston Post, New York State Branch of the American Legion, it is expected the official publication of the American Legion, 'The American Legion Weekly,' will be on sale in this city. This inspiring paper will sell for five cents a copy.

Members of Kingston Post will have an opportunity to subscribe to the official paper through the Post for a small sum.

The following is a copy of a telegram sent to the officers of the Legion Publishing Corporation 19 West 44th street New York, by General John J Pershing:

Chaumont, France.

It gives me much pleasure to extend to the American Legion my hearty good wishes for success on the occasion of the first issue of the official paper of the society of veterans of the great war. The Legion is destined to be of tremendous value in fostering the ideals and purposes for which we fought, and in spreading among our people the lessons learned in the war. The American Legion Weekly as the medium of communication throughout the country will more closely unite the already strong bonds of comradeship among the members. I predict a most useful future for the legion and the loyal support of all for the new weekly.

PERSHING.

### Dreaming of Cats.

To dream of cats is said not to be lucky. If you dreamt of a black cat your enemies are active; to be bitten by one indicates misfortune; burglars are about when a cat follows you in a dream; while to dream you are stroking one means, beware of false friends.

## THE BIG SISTERS

### Are Proving Equally Useful as Big Brother Movement.

The Big Brother Association has been in existence nearly a score of years, and has branches in over one hundred cities. The thought and scope is to help boys who might otherwise go astray—in fact those who have already started on the wrong road.

But the Big Sister idea is much younger. It was started in 1910 by Mrs. William K. Vanderbilt, who is still at the head of it, and was supported almost entirely by her until its incorporation in 1912. It is entirely supported by voluntary contributions.

It is an incorporated organization of women which help unfortunate children, especially girls without proper guardianship and delinquents who come into children's courts.

Ten thousand children under the age of sixteen years are annually arraigned in the children's court of New York city. Many of them are girls. Without help, beyond what they are likely to get in their homes, their whole lives would be sadly marred, if not ruined.

It needs more than the probation officers. Here comes the work of the Big Sister, who is often the first real friend the girl has ever known. To make the girl understand that she has a friend who will help her gives life a different aspect.

Places with good surroundings are found for those who may properly work, some are sent to night classes where they may learn those things which will benefit them.

More recently a home has been found for them, situated now at 124 East 146th street, New York city, in which fifteen girls are cared for and given right ideas of life and where they do such parts of the work as they are qualified to do. Frequently suitable homes are found for them.

These are not necessarily girls from the poorest families, but those who are inclined to go wrong. Most of them have already been to the children's court, where the court representative of the society, Miss Katharine Rossinger Smith, has found them, although some parents voluntarily take their girls to this home.

Several of the girls have been sent into the country for the summer, some helping sufficiently to earn their board and others earning some money.

Mrs. Minnie J. Day, who since the death of her husband, Dr. James B. Day, several years ago, has spent her time largely in philanthropic work, is the superintendent of the Big Sisters' Home, which, as stated above, is at 124 East 146th street. The office is at 17 Madison avenue.

The present officers are: President, Mrs. William K. Vanderbilt; secretary, Mrs. Charles Dana Gibson; treasurer, Mrs. Willard Parker, Jr.

The superintendent, Mrs. Day, has been spending some time with her cousin, Mrs. P. N. Chase, on Green street.

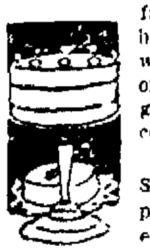
**Plant to Be Dreaded.**

One of the most terrible plants in existence is the Asclepias gigantea, which is common in Abyssinia, and grows also in Ceylon. When cut, a milky sap exudes from the stem and leaves, and the least drop of this will cause total blindness if it comes in contact with the eyes.

# The KITCHEN CABINET

> It is good to do battle, to suffer, to be thrown overboard and left to save ourselves. What we lose in comfort we gain in energy, and energy is the most precious of man's weapons.—Charles Wagner

## INVITING DISHES.



When making gravy without browned flour add the flour to the fat and stir until well blended, then add milk or water and a teaspoonful of kitchen bouquet to give the rich, brown color.

**Raisin and Celery Salad.**—Cut into small pieces two cupfuls of celery, two oranges broken in bits, two-thirds of a cupful of raisins, seeded and plumped over steam, a cupful of grated apple and a cupful of mayonnaise. Cover with this mixture the apple and mayonnaise, making an especially delicious mixture.

**Green Corn and Green Pepper.**—Cut the corn from four ears, put into a frying pan with a tablespoonful of hot fat, add a chopped green pepper, season with salt and pepper and add more fat if needed and cook twenty minutes, stirring to keep from burning.

**Cassolet.**—This is a famous French dish which is both historical and appetizing. Soak over night one quart of lima beans; in the morning bring to the boiling point, add salt, fresh water and cook until tender, or nearly so. Place in a casserole two cupfuls of cold cooked chicken or duck, add the beans, an onion, half a cupful of strained tomato, a quart of hot broth and a teaspoonful of kitchen bouquet. Bake one hour, uncover, sprinkle with a little minced parsley, brown and serve.

**Filling.**—Boil two cupfuls of sugar with four tablespoonfuls of water until it threads; pour over three well-beaten egg whites, add a half cupful of citron, shredded fine, half a cupful of shredded figs, one cupful of chopped raisins and one cupful of chopped, blanched raisins. Spread between the layers and on top of the cake.

**Pressed Corned Beef.**—Cover a piece of corned beef with cold water, let heat gradually to the boiling point, then simmer slowly until very tender, about six hours. Remove to a brick-shaped bread pan and cover with a board and weight. Let stand several hours. Serve cut in slices, garnishing the platter with parsley. The liquor saved from the meat may be used to cook cabbage, giving it a very nice flavor.

**The Stroller Hears Dr. John F. Larkin Might be Induced to Run for Mayor if Jefferson Club Find it Hard to Get a Candidate Early Next Week.**

"I heard today," said the customer, dropping the newspaper he was reading, "that the Jefferson Club would shortly meet, but have not decided upon a date."

"And the reason for that," replied the busy barber, "is due to the fact that they like to make sure that have a candidate for the nomination of mayor who will stand without hitching."

"Haven't they got anybody yet?" queried the customer.

"Not yet," replied the barber, "but I understand that Dr. John F. Larkin might be induced to accept if they were unable to find anyone else."

"Who would they run for alderman-at-large," asked the customer.

"I don't believe that William B. Martin, the former alderman, would refuse to be a patriot for the party's sake," replied the barber, "and there has been some talk that they might induce Mrs. Hattie B. Michael to run, as a woman on the ticket would add novelty to the contest."

"Who is she?" asked the customer.

"I'm surprised," retorted the barber, "for I thought every one knew Commissioner Michael, the efficient member of the city health board, and the woman who ran for assembly on the Democratic ticket against Assemblyman Joel Brink."

"Now I place her," replied the customer.

"If Dr. Larkin should consent to having his name used," continued the barber, "it is likely, however, that they will allow him to select his running mate for alderman-at-large."

"That's fair enough," agreed the customer.

"And let me whisper in your ear," added the barber, "the Jefferson Club are expected to meet in executive session next Monday or Tuesday evening at the club rooms, and at that time they will try and have one of the local Democrats offer himself as a patriot for the cause."

## HIGHLAND.

Highland July 16.—Weather conditions last Friday were highly satisfactory to the Auxiliary Club of this place. A large delegation was present at M. E. Church parlor where Mrs. George Auchmoody, Mrs. Joseph Schantz, Miss Adeline Terwilliger Miss Mattie Schantz and Miss Ada Van Nostrand, the genial hostesses, welcomed all so graciously that the members felt at their ease. The club also received a few guests your correspondent was informed. The club done itself the honor and paid the president, Mrs. R. H. Decker, the high compliment of unanimous re-election for the 22nd year. A record to be proud of, for few attain it. She made a brief address thanking officers and members for their loyal assistance and co-operation. The president received the gavel from the first vice-president, Mrs. J. W. Feeter, who had conducted the election. Then all officers were re-elected to serve the year. The vice-presidents follow, Mrs. J. W. Feeter, Mrs. C. J. Elting, Mrs. W. E. Wilcox, Mrs. F. L. Palmer, Mrs. J. D. Whitley, Mrs. Chester Atkins, Mrs. F. L. Metcalf, Mrs. Daniel Kurtz: Devotional exercises, Rev. and Mrs. F. A. Coons; recording secretary, Mrs. J. Smedes; corresponding secretary, Mrs. S. A. Ferris; treasurer, Mrs. Mary Malloch; membership, Miss Julia Ferris; house committee, Miss Bertha Dimsey; sunshine, Mrs. E. B. Herrington; board of managers, Mesdames Seaman, Maynard, Reynolds, Melins, Lent, Merritt, Coons, Hudson and Miss Adaline Terwilliger; collectors of dues, Mrs. D. Kurtz, Mrs. A. Martin, Mrs. J. Smedes and Mrs. W. Constable. The meeting was full of inspiration and encouragement and all caught a glimpse of the strong, sane, onward movement of the club, which has taken such a hold of the hearts of the people. All found happiness and satisfaction in the re-election and no wonder they are full of new ideas, energy and enthusiasm after mingling under such auspicious circumstances. Club details were discussed and the executive given power to deal with questions arising. The readers may obtain some idea of fall and winter campaign later on. No announcements are yet made, regarding a preliminary season but the curtain will be rung up for something before long. A pleasant social followed the business meeting, when the hostesses served ice cream and cake. All were united in their expressions of enjoyment to these ladies in charge and on leaving gave thought to the past and still better thoughts to the future work of this notable club.

The U. D. Society was very delightfully entertained last Saturday afternoon at the home of Mr. and Mrs. Howard Wilcox—there were also few friends invited to participate in the pleasures of the afternoon—every women present had a delightful time. This society, we hear, entirely excludes the men only if they have some sort of a social gathering, but then, we do not care. We men do not care or think as much about the society part as the women, who seem to dote on those things, yet all voted Mrs. Wilcox a good hostess.

Mr. and Mrs. Chester Atkins are entertaining this week relatives from New York city and all have enjoyed pleasure trips in automobile and so forth.

Mrs. Kelsey Staples has achieved marked success as an organist. Her recital given last Sunday evening before service was fine. She rendered the selections in a broad and passionate manner; her touch was massive and penetrating and every note could be heard from one end of the huge M. E. Church auditorium to the other and few could have extracted from the instrument so much sonority and musical quality of tone. She fairly captured the large audience we would say. A recital of that quality once in a while is grand. The M. E. Church people may congratulate themselves on having so able and progressive organist as Mrs. Staples.

There will be a food sale on Saturday afternoon, August 2nd, on Mrs. J. W. Feeter's lawn, under auspices of Auxiliary Club, of which more will be said later on.

Archie Turrentine is spending a short vacation at the home of his parents, the Rev. and Mrs. F. M. Turrentine, on North Road.

The Rev. F. A. Coons, wife and son, left here Monday for a few weeks' vacation. They are at present in Pine Bush, visiting relatives and friends and during their absence will spend some time at various place. We knew they will have a delightful change and a pleasant time all around.

J. W. Feeter was in New York city the past week on business.

Arthur Schamerhorn of New York was week end visitor here at his home on Main street.

Henry Hovet spent the week end here with his family at their home on Maple avenue.

Mr. and Mrs. Simeon Scott have been entertaining a sister of Mrs. Scott from Yonkers.

Richard Lent, who has been overseas over two years, returned home last week for a couple of weeks before being discharged. He has many friends here, who were very glad he has returned safe and sound. He has had considerable experience.

Mr. and Mrs. J. M. Moule and Mrs. Markle are spending the week in Brooklyn with friends. They expect to leave here the last of July for sunny California for the winter. We hope to have them in the place again as residents, perhaps next spring. They leave a host of friends who regret their leaving, for they have made their home here for years and were interested in the welfare of the village, also M. E. church, and their famous house, "The Pines," was always filled with first class people, who appreciated many good things done for them, and this house is greatly missed this season. We wish for them success.

Captain Louisa Young of the Salvation Army, Poughkeepsie, gave a most interesting description of her work in the war zone, last Sunday evening in the M. E. Church, to a very large audience. She with others, did a great deal of good over there. I wonder how some of the women here, who grunt at doing a little home baking, would enjoy frying two thousand doughnuts a day, and making one hundred and forty pies each day, besides other duties. We fear they would say we want to board. She displayed a true spirit of patriotism and considered it an honor to be an "American" and do her duty to her fellow man, and her good deeds will receive just rewards.

Mr. and Mrs. J. W. Feeter leave here Saturday of this week for Buffalo and from there will go with relatives to Detroit, Mich., for a visit. This will be a delightful trip and worth taking, for they have many relatives in the west with whom they will spend much time, also a fine sight-seeing trip and the change will be very beneficial to them.

Grange held their regular meeting Tuesday evening, conferred degrees, had a very good attendance, interesting session and refreshments closed the evening most pleasantly.

A meeting in the library Tuesday eving to form another organization in the place. It will be called "The American Legion."

The Masons held a meeting Monday evening. They conferred the third degree on three candidates. Then refreshments were served after their work, which they all appreciated and thus the Brothers spent a pleasant time.

Miss Dorretta Gedney spent a few days here with her parents. She is taking a course in training in Poughkeepsie at St. Francis's Hospital. She is quite captivated with the work.

The fireworks in Poughkeepsie were plainly seen by many here, it being the closing Wednesday evening of the Mount Carmel feast, which is celebrated every year with a great deal of pomp. They also held a bazaar, where they had many attractive and useful articles on sale. This was for the benefit of their church. It was well patronized.

Can anyone give any reason why August 29th cannot be made a red letter day, as we are to have a "welcome home coming" for the boys who have been in the service of our country. Surely among all of our up to date, progressive readers of The Freeman in this place there certainly are people who have given this subject careful study. We pro gress through action and it is desirc to have this as a community affai Start your campaign early. The u derlying intention in asking that th be done is simply to start the b rolling in the endeavor to get ever one interested and in working ord: To those who believe in progress it almost unnecessary to say anythin in regard to it. We hope definite ac tion may be taken at once by those who have this in charge and we trust every person will be frank and quick to respond to the calls of the various committees. The decorations should be a great feature and in the hands of skillful manipulators can be made wonderfully attractive. And the menu, which is to be a very prominent and essential affair, certainly needs thought and time for preparation. And then there are to be some addresses, fine music and to end a pleasant day and evening, dancing will be indulged in. Then we think this will be indeed for soldiers and everyone, another "glad day," perhaps beyond the one a few years ago, at least in many respects. Let everyone be loyal.

Which is only one advantage of the Electric Washer—it is on the job when you are—early or late, as you wish. It never disappoints.

## Makes the Maid Happy

With the Electric Washer you can easily do the family washing yourself in an hour or so. If you have a maid or laundress, however, you'll find them far more contented and loyal if they merely have to supervise the use of the Electric Washer in place of actually toiling over the washboard.

Purchase an Electric Washer now on these liberal terms.

# CONVENTION WELL REPORTED

### Two Paterson Members Help Harry P. Dodge Tell of International Rotary Gathering at Salt Lake City—Guests From Down the River.

Kingston Rotarians were out in full force at the monthly evening meeting Wednesday even Major Chandler having succeeded in making Rome stop howling long enough to enable him to attend the meeting. Visitors from Paterson N. J., who were expected, and visitors from Poughkeepsie and Newburgh, who were not expected but were none the less welcome, swelled the company to such unexpected numbers that the supply of provender ran rather short for the late comers. Mr Dodge introduced another new song brought from Salt Lake, about how "John Brown's baby had a cold upon its chest," and most of the old songs were sung.

The feature of the evening was a report of the International Rotary convention given in a way that was as attractive as it was unusual. W. J. Gurney of Paterson reported on the stunts features of the trip, with sidelights on humorous incidents. William Hemstead of Paterson reported on the principal addresses delivered before the convention and the 'highbrow' features generally and Harry P Dodge reported on resolutions adopted also 'mopping up' any general features that the other two had omitted. This composite report was very full and at the same time interesting and edifying.

Joseph Terrell president of the Newburgh Rotary Club was called on for a speech but refrained from anything beyond a few 'pleased to meet you' remarks. Other visitors present were Graham Witschief, William Hawks and Lex Molitor of Newburgh and Harry Mattison Poughkeepsie's man with the iron brain.

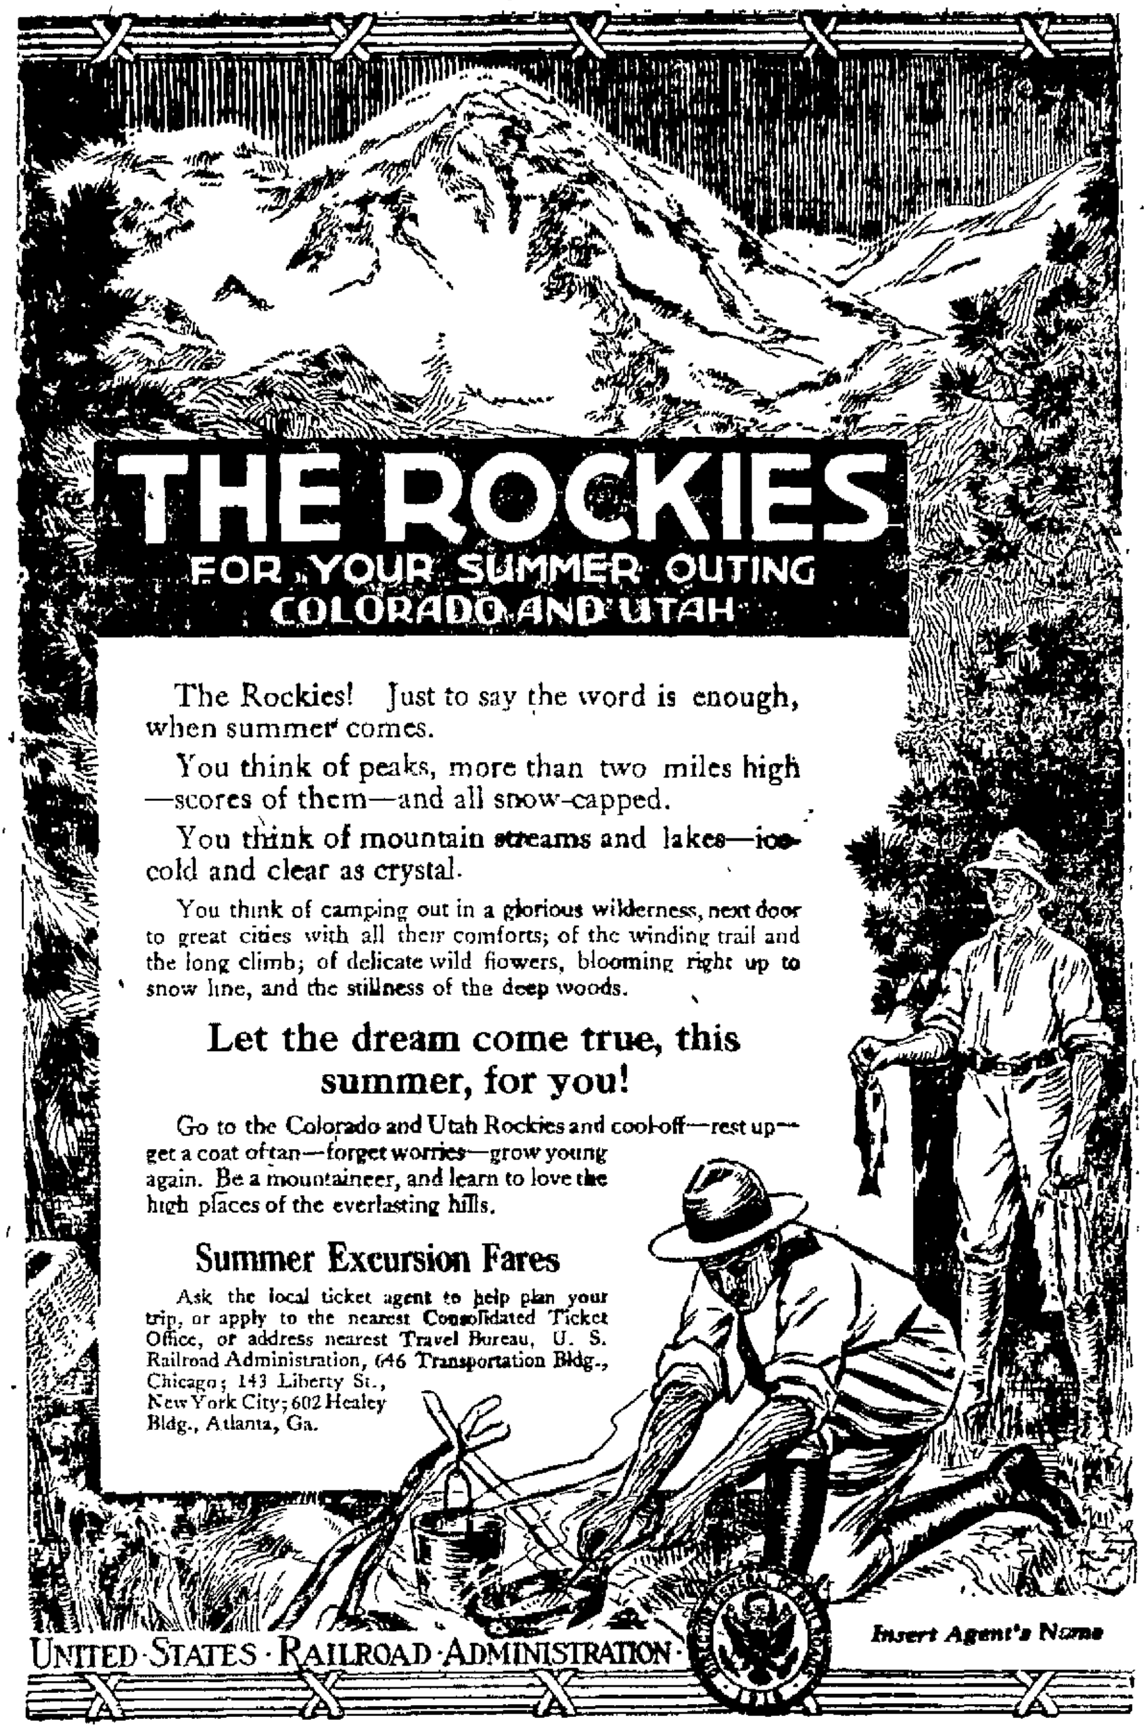
**When Virginia Seceded.**

On April 17 in 1861 the state convention, composed of the members of the legislature of Virginia, passed the "ordinance of secession" by a vote of 88 to 55. Virginia, 11 days prior to this, had refused to join the states of America: but the decision of the Confederate leaders to fire upon Sumter and Lincoln's call for 75,000 volunteers on April 15 turned the scale and Virginia threw in her lot with the South.



**THE ROCKIES**
FOR YOUR SUMMER OUTING
COLORADO AND UTAH

The Rockies! Just to say the word is enough, when summer comes.

You think of peaks, more than two miles high —scores of them—and all snow-capped.

You think of mountain streams and lakes—ice-cold and clear as crystal.

You think of camping out in a glorious wilderness, next door to great cities with all their comforts; of the winding trail and the long climb; of delicate wild flowers, blooming right up to snow line, and the stillness of the deep woods.

**Let the dream come true, this summer, for you!**

Go to the Colorado and Utah Rockies and cool-off—rest up—get a coat of tan—forget worries—grow young again. Be a mountaineer, and learn to love the high places of the everlasting hills.

# PREVENT CIGAR WORKERS STRIKE

(Continued from Page One.)

just what they think they should be, our policy is to urge them to make up their minds as to just what is wrong or what they think is wrong, then go to the employer, lay the facts before him and ask that the conditions be changed or that the pay be increased. We do not stand for strikes. We do not want strikes. We do not attempt coercion; we never approve of picketing of those who are at work by those who are not working. A strike should never be called until every other means of causing an employer to see the fairness or justice of a request has failed. And Kingston employers, or the most of them, we believe, are inclined to be fair and to give a hearing to employes at any time.

"If our policy had been otherwise we would have had twenty strikes on in Kingston since the first of the year. Men and women have come here without any request from me, as president of the central body, and without any invitation from any one else connected [illegible] organization, have come here, looked me up, [illegible] themselves and announced the [illegible] I should leave my work and go with them and help them. [illegible] have discouraged them, have told them that we, here in Kingston, knew more of the conditions here than they did, and when there was need for intervention by the central body, we would take a hand [illegible] while, the best thing they could do, [illegible] the first train out of the city.

"We have, in this way, protected our men from being molested and interfered with in their work by these agitators, we have also protected those not organized from being annoyed and we certainly have made it possible for the plants and the industries of the city to go on with their work without labor troubles and without friction. No less than thirty crews of men and women have come through to Kingston, usually from New York, though in some instances from other places, each crew intending to stir up trouble. Why there should be such activity by these 'organizers' at this time, I do not know. But I feel and I know the thinking men of the Central Trade and Labor Council feel that this is not the time for agitation and trouble. It is the time when employer and employe should go along together in a spirit of harmony and each ready to see the problem from the standpoint of the other. The whole world is in a sort of uproar and I believe it to be the duty of organized labor to avoid trouble at this time, in the interests of the common welfare and the country's good, and to help get conditions back to the normal in the quickest possible time.

"Yes, I know there have been a couple of strikes on the ship yards and in a couple of the smaller garment making houses. We of the Central body were, however, in no wise responsible for the appearance in Kingston of Mr. Wolfinger or Mrs. Scully, and cannot be held responsible for this trouble. Mr. Wolfinger and Mrs. Scully both came here, however, accredited from the National organizations that sent them and they were entitled to the courtesy of the local Central body.

The presence of Mrs. Scully in Kingston may be attributed to the reports made to representatives of the American Federation of Labor who had been through this city investigating wage scales, by Mrs. Laura MacMillan, when in charge of the Employment Bureau of the Government, who told young women what the scale of wages paid in the local factories was and what they might expect if they came to work here. We tried to mediate and settle these differences as quickly as possible, but failed to accomplish much. But we did succeed in keeping the spirit of unrest and dissatisfaction from spreading to other plants and other industries. And when attempts were made by outsiders to "pull" certain shops, I left my work, went direct to the plants and caused the pickets to make themselves scarce. When plans were in the making for the organizing of the employes of several large manufacturing plants, these plans including the determination to call a strike in each case over night and without giving the employer any warning, we quickly put an end to it.

"When conditions call for improvement, when wages paid in any factory are so low as to warrant requests for increases, and when employers assume an air of arrogance and refuse to be fair or decent, the Central Trade and Labor Council will assert itself. But no strike will be called with the approval of this body until every effort has been made first of all to settle the [illegible] ference by appeals to the sense of fairness of the employer.

"We have as much consideration for the employers of the city as anybody can have. We know that these employers can't always do as well by their workers as perhaps they would like. We know, too, that some employers are very fair and even generous with the help, but we know, too, that there are others who would gouge the last penny of labor and service out of the man or woman who must work for them.

"We want Kingston to grow. And we want more factories here and more employment for men. We feel that it should be a matter of gratification that there has been so little labor trouble in Kingston this year, when in practically every other city there have been so many strikes and so much trouble, and when there are so many people going from city to city, seeking to call strikes, to stir up bitterness and to make for confusion."

# AUTO AND WHEEL PARTED COMPANY

This morning the Ford delivery truck of A. Levinson of No. 44 William street, Newburgh, who is engaged in the fruit business, loaded with watermelons was driven to Kingston by W. Siveritts of No. 76 Benkard street, Newburgh, accompanied by Mr. Levinson.

They delivered the watermelons to an uptown merchant and then started on the return trip to Newburgh. Coming down the Broadway hill at the Orpheum theater a rear flange on the auto gave way, and one of the rear wheels worked loose and parted company with the auto.

The wheel left the road and dashed up on the sidewalk and bounced against one of the large plate glass windows in Weston's Laundry wrecking the window. The auto which ran away down the hill was finally brought to a stop at West Union street, and was towed back to the Empire Garage for repairs.

There was one large watermelon left in the truck, and Messrs. Levinson and Siveritts, grateful over their narrow escape, secured a knife from one of the crowd of young men who assisted in towing the wrecked car to the garage and distributed the watermelon as far as it would go among the crowd.

### Why Hair Stands on End.

When hair stands on end on the back of a dog or cat when frightened it is moved by tiny muscles attached to the roots. The hair follicle is like a little seed buried in the flesh. Attached to either side of this seed are tiny muscles which run diagonally through the flesh from the lower part of the follicle. These little muscles are like the guy ropes of a tent. They are what are called the erector muscles, and when fear or cold is experienced these muscles promptly tighten up in such a manner as to "hoist" the hair very quickly.

# THRIFT BANKS HELP VACATION SAVINGS

## School Children Supplied With Temporary Depositories for Summer Funds.

Pupils in practically every school in New York state, the twelve northern counties of New Jersey and New York city are starting their vacations well equipped for individual savings campaigns during the summer months. Each and every one of them was given a little bank, in which money can be saved for War Savings and Thrift Stamps that will be bought next September upon the reopening of the schools.

These Thrift Banks are supplied by the War Savings Committee, 120 Broadway, New York city and more than one million of them are now in active service. Made of strong cardboard, and of a very convenient size, the banks are proving very popular, according to teachers in schools of different towns and cities throughout the Second Federal Reserve District. They were distributed to pupils during the last week of school. Reports from hundreds of class rooms where the banks were given out show how the interest of children in summer savings was aroused by teachers telling of the manner in which the use of the Thrift Banks will help keep high the school records for saving.

To make of thrift something that will do great good among those of the growing generation the practice of regular savings must be a twelve months proposition, well known educators have informed officials of the War Savings Committee. These men and women agreed immediately with the idea of the W. S. S. Thrift Banks, for use in the summer, as a substitute for Penny School Savings Books, which have been adopted in the majority of the schools. Heads of Boards of Education in nearly all sections agreed to co-operate with the War Savings Committee, in bringing the Thrift Banks to the attention of the children, with the result of a very satisfactory distribution.

When the banks were given out by teachers the children were informed that they should take good care of them and return each one to class rooms next September, regardless of the amount of the money saved. Those putting only a few cents in the bank will be given Penny School Savings Books, in which will be stamped imprints of the likeness of Benjamin Franklin, the father of thrift in America, one imprint for every cent turned in. Pupils who save twenty-five cents will be given a thrift stamp, while those saying sufficient money for one or more War Savings Stamps will be given these popular Government securities, earning four per cent. interest, compounded quarterly.

# NEW RAIL PLANS ON SOUND BASIS

## Congress Determined to Make Certain Future Growth of Transportation Facilities.

## PLANS AGREE ON PRINCIPLES.

## Return of Roads to Owners With Assurance of Adequate Revenues.

Washington.—One of the big problems before the new Congress is getting the railroads back on a peace basis. These 260,000 miles of steel highways were taken over by the Government as an indispensable arm of the national defense; but now that their war service is over, there is a country-wide demand that the Government restore them to their owners to be operated on normal American business standards of efficiency.

But, as has been pointed out by President Wilson as well as by many men in public life who have given this subject years of careful study, it is not enough simply to say to the railroad companies, "Take these railroads and give the country the best transportation service that money and brains can provide."

### Old Laws Obstruct Growth.

The President recently said that it would be a serious mistake to return to the old conditions of railroad regulation without reforming the antiquated laws that were obstructing the free development of transportation facilities. The Director General of Railroads has recently made an inspection trip from coast to coast, and he has been telling the people that the time has now come to put the railroads on a sound foundation.

The plans for a better system of national control of railroads are as varied as were the plans for banking and currency reform when Congress received a mandate from the people to provide insurance against financial panics. The public now demands insurance against a breakdown of railroad transportation, and the new Congress is undertaking this work as secondary only to insurance against international warfare. Congress solved the banking problem seven years ago as a non-partisan issue, in which all the people had a common interest, and Congress evidently is tackling the railroad problem with the same spirit.

While the many plans that have been proposed differ in the methods to be adopted in reaching the desired goal, it has been pointed out by Senator Cummins of Iowa that all these plans have really very much in common—so much so that he is confident that Congress will have little difficulty in framing a bill that will meet with popular approval, and that will take the railroad question out of politics for many years to come.

### Many Plans With One Aim.

The Iowa Senator has a commanding position in this Congress because he is the ranking member of the Interstate Commerce Committee of the United States Senate, and it is in this committee that the new railroad bill will take final form. In an address before a national meeting of business men at St. Louis Senator Cummins stated that since the close of the war fully thirty complete plans for new railroad legislation had been submitted to him by business men, economists, bankers, railroad officials and owners, Government officials, railroad workers and just plain citizens.

The basic principles upon which all of these plans, with one exception, agree are as follows:

**1. Private operation is more efficient and more economical than Government operation, and the public interest will therefore be served by a return of the roads to private management.**

**2. To make certain that new capital will be attracted to the expansion of railroad facilities, there ought to be greater certainty that a fair return will be earned on the investment.**

**3. The merging of weak and strong roads into large competing systems should be encouraged.**

The making of a formula to provide a fair return on railroad capital seems likely to be the phase of the problem most thoroughly debated in Congress. The Director General has been urging that the Government ought to guarantee a certain return and share in any excess earnings. Leading bankers, especially some of the international bankers in Wall street, who have in the past marketed many hundreds of millions of railroad securities, also look favorably on the suggestion of a Government guarantee, which will make it easier to sell new securities, and will also stabilize the market for the old bonds and stocks.

### Government Guarantee Opposed.

But the proposal that the Government shall guarantee the interest and dividends on private capital invested in railroads will undoubtedly meet with very vigorous opposition in many quarters. Even railroad executives, who might be supposed to take kindly to the idea of a Government guarantee against failure, have frankly stated that they do not want it, because they believe it is un-American in principle, would tend to lessen efficiency, and would involve the roads in a Government partnership that would inevitably lead to Government ownership.

### Roosevelt's Long Ride.

In February, 1909, the late former President Roosevelt rode 98 miles on horseback in the seventeen hours between daylight and dark. The trip was from Washington to Warrenton and return. Three horses were used.
